Professional Summary

Hardworking and dedicated Computer Science student with a passion for problem-solving and technology. Demonstrates excellent time management, critical thinking, and a strong commitment to achieving both personal and team goals. Achieved 4 distinctions in Grade 12 with an average of 81.86% , and 4 distinctions in the first year of Computer Science with an average of 70.9% at the University of the Witwatersrand. Possesses a solid academic background and a drive for excellence.

Objective

To leverage my strong problem-solving skills and programming expertise in Python, C++, SQL, and MATLAB to contribute effectively to innovative tech projects while further developing my knowledge and experience in software development.

Education

- **Moreko High School**, Class of 2023
 - Achievements: 4 distinctions, including top performance in Mathematics and Physical Science.
- **University of Witwatersrand**, BSc Computer Science (2024 - Present).

Skills

- **Programming Languages:** Python, C++, SQL, MATLAB.
- **Web development:** HTML, CSS and JavaScript.
- **Debugging and Troubleshooting:** Identifying and resolving software bugs efficiently.
- **Technical Skills:** Data Structures, Algorithms, Software Development, Version Control (Git).
- **Soft Skills:** Problem-solving, Critical thinking, Time management.

Projects

- **LinkedList Implementation in C++:** Developed a custom LinkedList class with `push_back`, `push_at`, and `push_front` functions, showcasing proficiency in C++ and data structures.
- **Python GUI Development with Tkinter:** Designed and coded a Pie Chart DrawingTool in Python, leveraging Tkinter for graphical output and demonstrating skills in data visualization and graphical representation.
- **Creating a Sudoku solver program in C++:** This project challenged me to apply my knowledge of data structures, algorithms, and recursion to solve a complex problem. Initially,

the program could solve standard 9x9 puzzles, but I later optimized it to handle larger 16x16 grids.

Certifications

- Certificate for Top Learner in Mathematics, Grade 11 and Grade 12 (Term 3).
- Certificate of Distinction in Mathematics and Physical Science from ProMaths.

Extracurricular Activities

- **Coding Club:** Active member of the university's coding club, participating in hackathons and coding challenges.
- **Volunteering:** Assisted in tutoring high school students in Mathematics and Physical Science.

Interests

- Passion for problem-solving and tackling challenging tasks.
- Coding and software development.
- Data Science: Analysing datasets and creating visualizations using tools like python.
- Tech Innovation: Staying updated on the latest advancements in technology, AI and cybersecurity.

Languages

- English
